2. To bridge the gender gap in STEM (Science, Technology, Engineering & Mathematics) field where women can excel and contribute to the real of Data analytics and AI.
3. To focus on building interest, knowledge, and expertise in a highly demanding technology workforce by enhancing job readiness skills.

**Event Write-up (Detailed Information): -**

Banarsidas Chandiwala Institute of Hotel Management and Catering Technology and Learning Links Foundation conducted a 20 Hours workshop on “Data Analytics” under “Women & AI” (Basic & Advanced Excel and Generative AI) Program, a collaborative Learning Links Foundation & Dell Technologies effort.

The workshop was conducted from 23-09-2024 to 01-10-2024 and covered topics like Data Analysis, Data visualization, and Generative AI with hands-on practice. The program was exclusive to female students and enhanced their data-centric skills, which they can use in their future careers. Approximately 33 female students of the Institute have participated in this workshop.

Resource persons, Mr. Sonu Gupta, Assistant Manager, Learning Links Foundation, took interactive sessions and trained about the different functions and formulas of Advanced Excel and Generative AI.

In the hospitality sector, Data Analytics is a skill that is needed and used by all hospitality managers. These sessions will aid skills in budding professionals to grow professionally and accelerate their career path in the future.

At the end of this workshop, students have been provided access to the free online certification platform [www.simplilearn.com](http://www.simplilearn.com) for more skillful courses.

Mr. Mohan Jain, Assistant Professor, coordinated the workshop and helped the resource person as well as the students to solve all technical requirements for the successful completion of this program.
